

## **Alumni Association**

One of the best parts of being part of an alumni association is the network that comes with it. An alumni network connects you, as a graduate, with a number of professional contacts and other graduates from your institution.

Whether it be building a brand, creating business connections or getting involved in other organizations, an alumni network is an excellent source for building those long-term relationships to get a foot in the door or advance your career.

Graduating and receiving your diploma with that great sense of pride does not mean your time with the institution has to be over. Getting involved in your alumni association can provide connections, career services, an alumni network, a wealth of knowledge and the opportunity to help the students who come after you.

Being an alumnus and receiving all the perks that come along with it is a two-way street. Alumni participation is critical to building and maintaining a strong community within the institution.

Vedang Institute of Technology has established a alumni group in Whatsapp, to facilitate its alumni to be in touch with each other and the institute.
